

WORLD OF RADIO #1105, produced November 14, 2001 by Glenn Hauser

- \*HFCC belatedly posted B-01 frequency schedule November 9, a very useful reference, help with unIDs, but large file, via:  
<http://www.hfcc.org/data/index.html>
- \*Radio Studio X, Italy, added a repeat of WOR, Sundays 1730 UT on 1584 kHz and FM
- \*RFPI grid shows one more airing for WOR, Mondays 1730, but no repeats
- \*RFPI's 21 MHz channel audible all day in New Zealand
- \*WBCQ has new programs until 1 am EST, so repeat of WOR is latened to 0600 UT Thursdays on 7415, 5.5 hours after first broadcast; how is this in Europe?
- \*We suddenly have a new frequency for WOR on WWCR, Fridays at 1030 on 3210 instead of 9475; and Mundo Radial, Fridays 2215 on 3215 ex-9475
- \*USAF calls back 7460 from WWCR, forcing it to adjust schedule for Bro. Scare service, now on 9475 and 2390; thus, transmitter #1 can no longer use 9475 at shoulder periods, so 90m extended 2200-1100
- \*No USAF usage of 7460 heard yet, but several other broadcasters including Polisario clandestine
- \*Hmmm, WWCR extension on 9475 is very bad news for R. Cairo listeners
- \*WRNO heard relaying New Orleans religious station; clashes with WYFR on 7 MHz
- \*William Cooper, Hour of the Time, killed Nov 6 in a shootout with a deputy sheriff in Arizona, who was in critical condition; Cooper was a favorite of Timothy McVeigh. Warrant for Cooper's arrest. Turned out to be a dangerous lunatic
- \*United Patriot Militia Bingo recording: ``Steve Anderson, man on the run``
- \*Jeff White on why Cuban exile programs are in decline
- \*R. Habana Cuba's major frequencies were missing for a week following Hurricane Michelle, but SSB back sooner
- \*Spy numbers heard on exact frequency of R. La Voz de Nahuala, Guatemalan evangelical station, and on 2nd, 3rd harmonics
- \*unID on 4840 correlates with reactivated XERTA, Mexico City, on a different frequency every night
- \*Mexican harmonic on 2 MHz popped up in Vermont, XERLK, Atlacomulco
- \*Something suspicious about Idea Radio, new Colombian on 7 MHz; music and accent are not Colombian. Same name and frequency for former pirate in Genova, Italy, whose manager fled to Colombia
- \*R. Landell, Brazilian pirate, announces broadcast for UT November 18
- \*R. Altura, Cerro de Pasco, Peru on new 5 MHz frequency
- \*Both Argentina's frequencies in English have heavy interference, but 11 MHz channel no longer offset
- \*This is the non-government, non-communist, non comercial, non-corporate, non-religious, non musical DX program, World of Radio, edition 1105; address [wghauser@hotmail.com](mailto:wghauser@hotmail.com) or fax 1-580-233-2948 attn Hauser. Much more info to be found at <https://www.angelfire.com/ok/worldofradio/>
- \*Lubumbashi, Congo DR has new 1 kW SW transmitter
- \*Sudan National Alliance clandestine verifies from Eritrea; postal address and [pmbasaf@gemel.com.er](mailto:pmbasaf@gemel.com.er)

- \*Radio UNMEE broadcasts in Eritrea suspended
- \*V. of Unity, Abuja, Nigeria, replaces Kaduna on 7 MHz channel
- \*Salama Radio gives new schedule, including English portions
- \*More French TV sound heard on 26 MHz band, but maybe not from France
- \*Deutsche Welle relaunching website November 15 <http://www.dw-world.de>
- \*Webcast DXing Radio L, Liechtenstein, <http://www.radiol.li/>  
[not <http://www.radio.li> as in original report quoted]
- \*Radio Polonia may close down shortwave due to poor reception  
(recording)
- \*Merlin Communications sold to Vosper Thornycroft Holdings, distanced  
further from BBC
- \*Progress report on new MF, HF transmitters for BBC on Omani mainland,  
and another transmitter for Thailand
- \*UAE Radio, Dubai, 21 MHz channel has been off-frequency
- \*Turkmenistan's lost English newscast refound at new time
- \*US aircrew support frequency 9022, coincidentally vacated by Iran,  
which used it for broadcasting
- \*Swaziland using former Afghanistan frequency, so don't be fooled
- \*Single-frequency windup radios not dropped into Afghanistan
- \*Commando Solo HQ cannot authenticate receptions yet
- \*Sole Taleban station, MW from Mazar-e Sharif, taken over by Northern  
Alliance, renamed Radio Balkh Province
- \*Radio back on the air in liberated Kabul, no frequencies mentioned,  
but hams against resumption of 40m band broadcasts
- \*R. Free Afghanistan legislation may be outpaced by events
- \*China National Radio testing numerous new SW transmitters,  
especially in Xinjiang; see DXLD 1-171
- \*V. of Vietnam has new relay to Europe via Austria, plus England
- \*VNG, Australian timesignals, may close down mid-2002, but will try  
to get out some QSLs this year
- \*Ducie Island ham DXpedition Nov. 16-25 or so, multi-band; rare IOTA  
and probable new DXCC entity; QSL via VE3HO
- \*Propagation outlook from Boulder, Nov 13: flux range 240-210
- \*So concludes with a Standard Disclaimer, yet another WOR, 1105;  
Glenn Hauser, here, hoping you've enjoyed it and will tune in again  
next week
